

PREPARING THE FILE WITH YOUR SIGNATURE

You need:

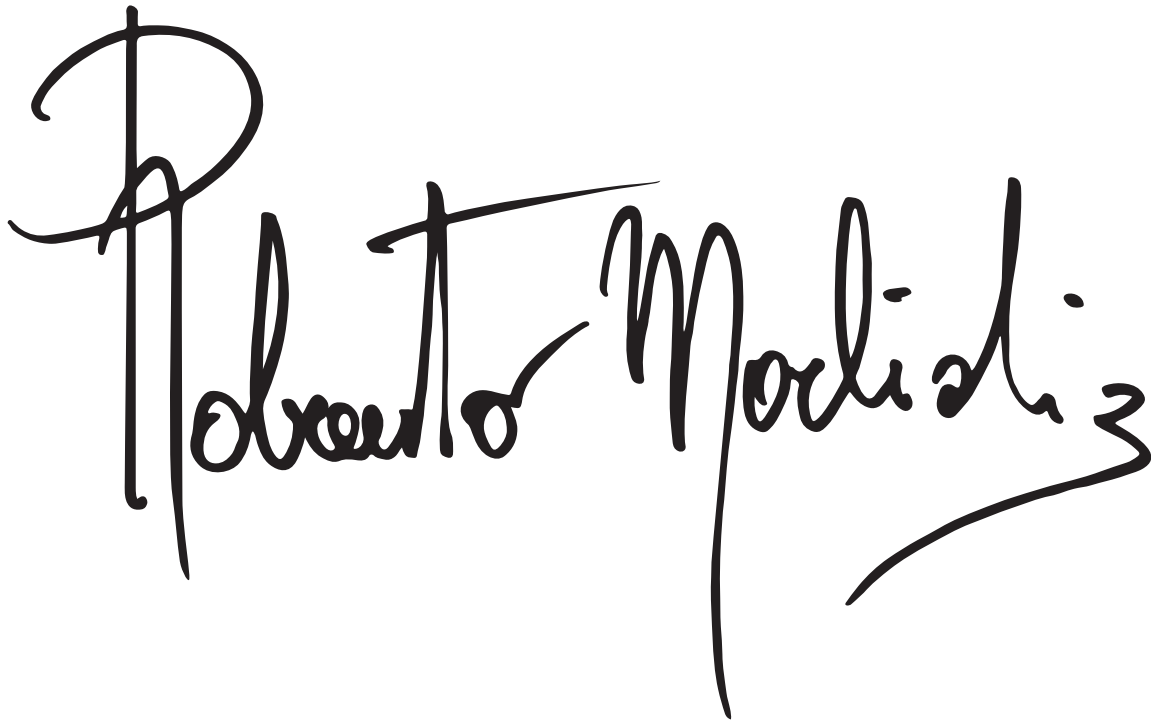

- Computer
- Scanner
- A4 white sheet
- Black medium point marker with a clean mark.

Draw your signature using approximately the entire width of A4 sheet. For best results the mark should be as precise and clear as possible and free of blurs.

Once satisfied with your signature scan the paper with a high resolution scanner, save it as JPG or PDF and send it to: info@dreammakeramps.com

It is advisable to send us at least a couple of versions of the signature to allow us to select the most suitable one.

Below an example of a signature:

A handwritten signature in black ink on a white background. The signature reads "Roberto Medelich" in a cursive, flowing script. The first letter 'R' is large and stylized, with a loop at the top. The rest of the name is written in a similar cursive style, with the 'z' ending in a long, sweeping tail.
